

POLY TAPE WHITE 40MM MIX 10 200M

Poly tapes are used for their higher visibility and superior strength for equine paddock electric fencing. The Poly Tape Mix 10 40mm contains highly conductive wires allowing the energizer to power a much longer fence reducing the need for additional energizers.

Features:

- Ideal for use on medium to longer permanent or temporary fences
- Durable design with a reinforced structure increases the lifespan of the electric fence wire
- Easier to collect when the system needs to be portable
- Bright blue and white are high visibility colours for horses
- Low resistance mixed metal wires including stainless steel and high performance wires
- Thick plastic mono-filaments on the edges to increase the life and reduce wear

Specifications:

Material	UV stabilised
Diameter	40mm
Roll size	200m
Conductors	10 stainless steel and highly conductive strands
Colour	White and Blue
Resistance	160 Ohms/km
Max distance	7km in optimal conditions
Strength	190kg (±10%)
